WORK EXPERIENCE

Software Engineer | React js Developer
Adsells. Ltd, Lahore, Pakistan

11/2023 - Present
Adsells is a company specializing in innovative branding solutions, supported by a dedicated software department.
Achievements/Tasks

- Developed and optimized **Carvonix's** core features – Built commenting systems, main feed posts, messenger, notifications, and user interactions, ensuring a seamless social experience.
- Integrated **Socket.io** for **live chat, instant post updates, and dynamic notifications** , enhancing user engagement.
- **Boosted performance with RTK Query**
- Designed and developed a full-scale e-commerce platform **Dance France**
- Created a custom UI, product listings, Stripe checkout, and an admin portal for managing products, blogs, and coupons
- Engineered a powerful **MDM Device Management System** – Built remote control features for banking devices, enabling Wi-Fi/Bluetooth toggling, app installations, and factory resets via MQTT and REST APIs . Enhanced system reliability & UI/UX
- Fixed critical bugs, improved **frontend architectures** , and collaborated across teams to ensure a high-performance, scalable user experience.

Software Engineer | Full stack (MERN)
Clicky, Lahore, Pakistan

05/2023 - 11/2023
Leading eCommerce shipping solution in Pakistan, empowering thousands of brands and entrepreneurs
Achievements/Tasks

- Contributed to the **WeShip** project by enhancing code quality and maintainability through clean, reusable coding practices. Engineered a robust backend with **Node.js** and express.js, while creating responsive user interfaces using **Vue js**. Streamlined database management with **MongoDB** and **PhpMyAdmin** for efficient data handling.
